

LOOMINOLOGY

THE HEART OF THE LOOM

50 YEARS OF EXPERIENCE

For years and years, we travel along with our customers, suppliers, and employees together with our LOOMINOLOGY brand in the future...

EXCELLENT QUALITY

The designs that our designers have prepared with their creative intelligence, we combine it with the mastery of our craftsmen.

Our love for this accumulation and our work exposes the heritage quality rugs that you may use for many years.

WIDE RANGES OF PRODUCT

- ORIGINAL TURKISH DOUBLE KNOT RUG PRODUCTION

We started our Turkish hand-knotted rug weaving adventures in 1963 in Turkey and now extended our production capacity yearly 5000m² without sacrificing the characteristics of Turkish double knotting system in Turkey, Bangladesh, and India.

- TIBETIAN WEAVING,

We carefully choose the most special materials that have the gift of nature to us like silk and wool. Tibetan weaving is one of the best production for custom orders we produce in Nepal.

- HAND/AUTO TUFT PRODUCTION

We began to manufacture Autotuft Custom order carpets for residential and commercials five years ago with the experience we have accumulated in hand-knotted rugs production.

We have the capacity around 2000m² monthly which we make the production in Turkey/Istanbul with high-quality materials.

FAST PRODUCTION & DELIVERY

Due to we produce the orders in-house, the lead time for custom orders is very quick like 4 weeks.

Loominology will be happy to be a partner preparing your current projects with our professional designers, selecting colors and right materials.

We wish you a pleasant business...

DESIGN SERVICE

Although we are a large collection, we sometimes know that a more unique approach is needed. We encourage our customers to discover their own creativity and create a unique piece perfectly adapted to their personal style. You may customize one of your existing designs or support a completely new design. Our expert team will be delighted to guide you through this exciting process.
